

FREEBIE

Happy Mother's Day/Birthday – Hybrid Card Kit

From the "Pink Damask" Collection

Part of the "I can Craft Now" Range of Printable Kits

Photos show (left) basic card for beginners (right) embellished flower card, both made from this kit

IMPORTANT NOTE BEFORE PRINTING: If your printed sheets do NOT look as they are on screen, then when you ask to print [ie, file-print] click the "Advanced" button and then click the check box beside "Print as image" and then click OK. You may like to do this before you print for the first time anyway!! More Printing Guidance is on the website <http://www.icancraftnow.com/printingtips.html>

For **best results**, change your print settings to "best quality" and "other inkjet papers" (or similar depending on your printer). The smoother and whiter your paper, the better your finished card will be. Smooth, white cardstock (that will go through your printer) is great!

I created the hybrid cards pictured above by printing onto a slightly higher quality paper (120gsm rather than normal 80gsm) and used a standard card base (or use scrapbooking cardstock and cut to size). It is entirely your preference!

Instructions *Minimum equipment needed: colour printer and paper, double sided tape (or sticky dots), scissors and a 5x7in card base.*

1. Print out pages 2 and 3 of this document only (page 4 has the Mother's Day dark coloured strip option).
2. When you have printed the page, cut out the elements and arrange till you are happy.
3. Then stick together using the above pictures as a guide! It's that simple! But there is a tutorial on the website and...

EVEN BETTER – Watch the **Free VIDEO TUTORIAL** on the website. <http://www.icancraftnow.com/pinkdamask/free-pd.html>

This card kit is part of a larger matching kit available for instant download from <http://www.icancraftnow.com> and all purchased kits include full step by step instructions and links to tutorials

TIPS for Great Cards

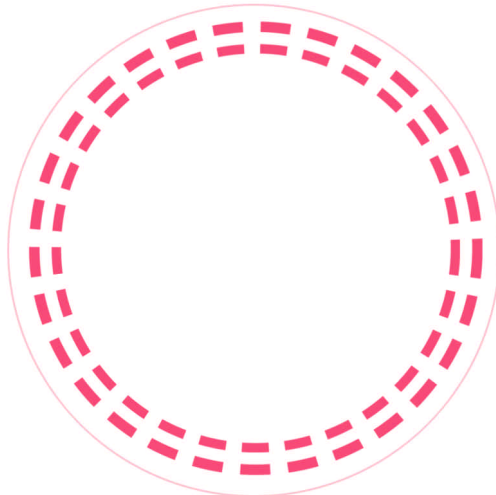

To make your cards even better, why not **ink the edges** of the papers. You may like to add ribbon, brads, glue on some buttons, or add any other trinket you would like, there are endless possibilities!

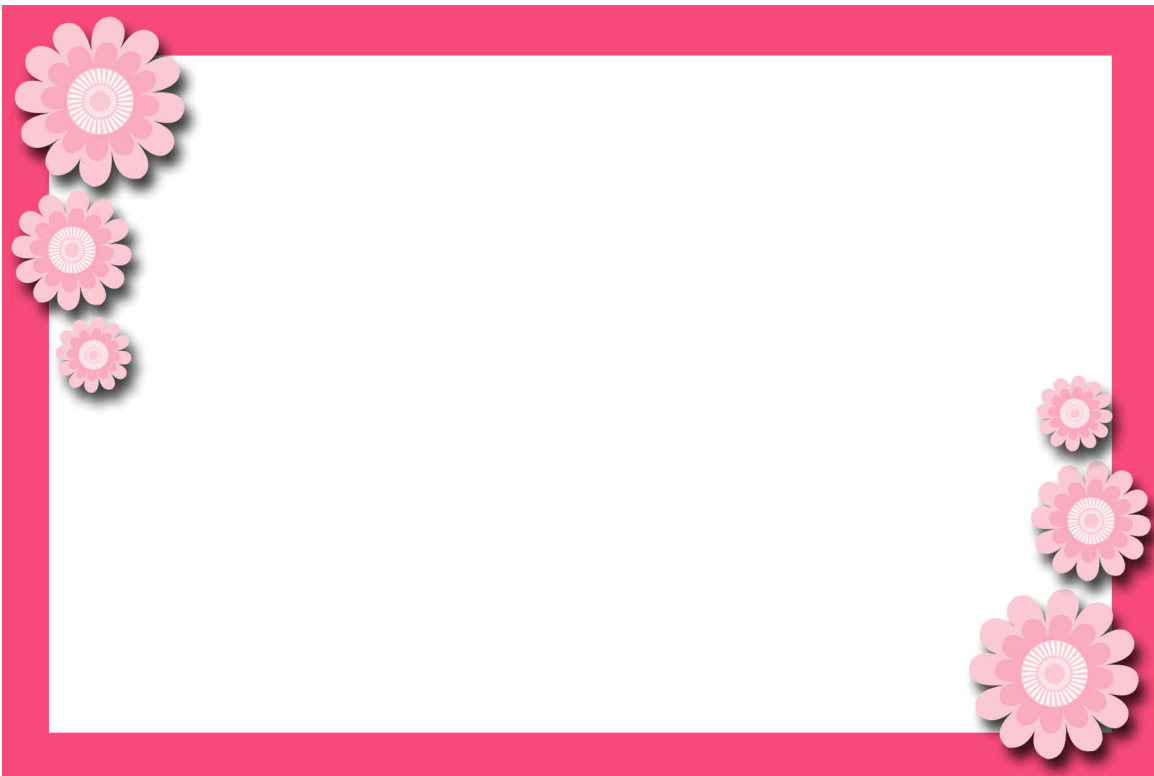

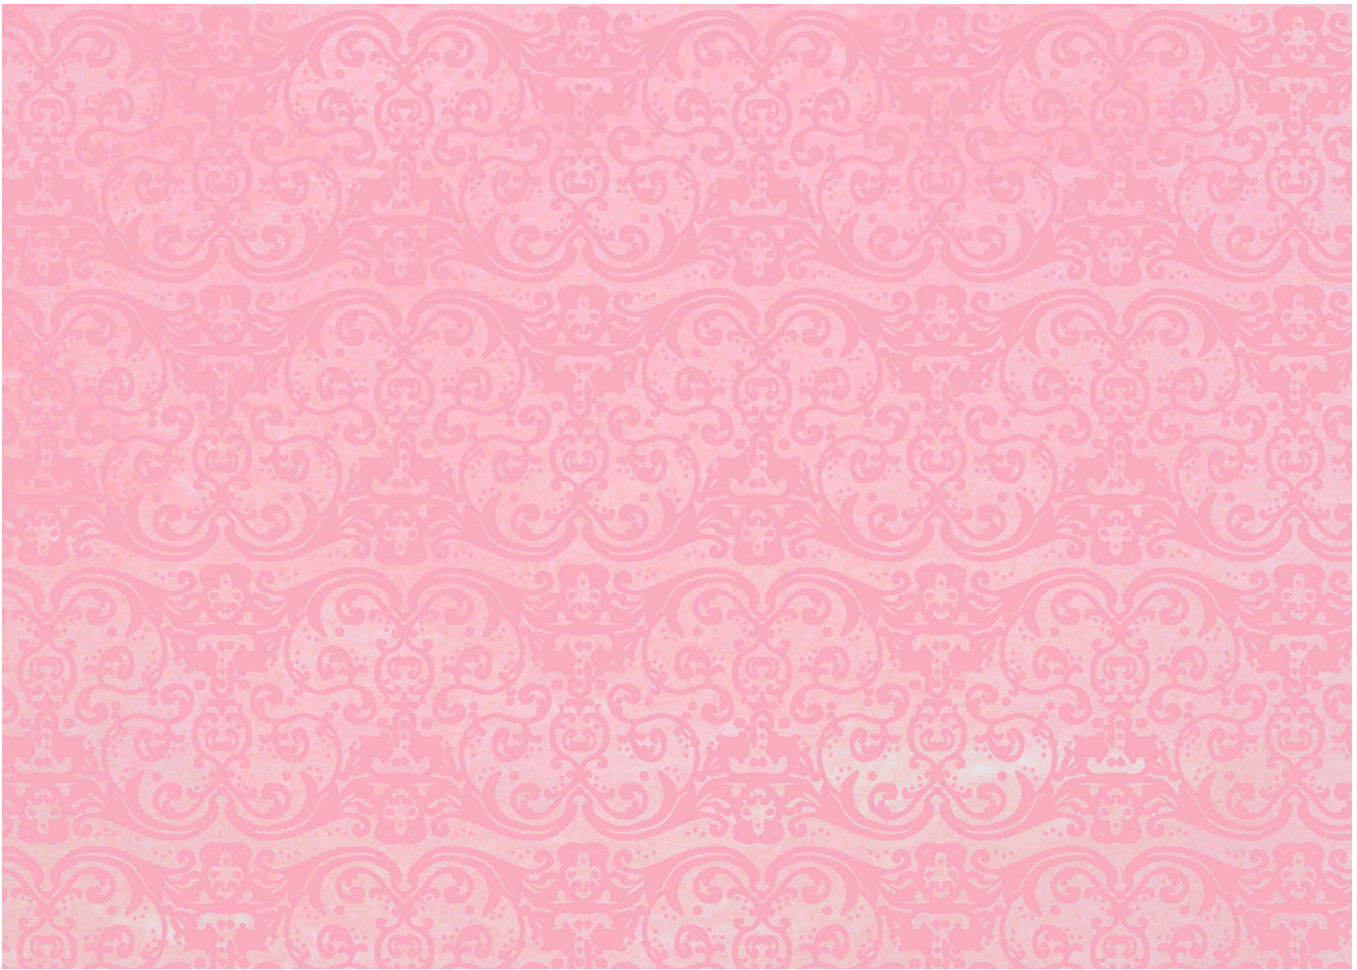

And don't forget you can make as many as you like, just keep printing! All kits are for **personal use only**, however, I am happy for you to make the cards you have made from this freebie available for charity purposes, but I ask that you please credit the original design Source on the back of your cards to **ICanCraftNow.com**

Thank You and enjoy your Card Making!
Warm Wishes
Sunday

Happy Birthday

Please remember that this panel for the inside of the card has shadows on the flowers and therefore be careful that you have it the right way up when sticking it down!! You might like to make a mark on the back to remind yourself which way up it is supposed to be!

This Way Up

Happy Mother's Day
